

Sinexcel AVC-RTS

Rated voltage:
208V/400V

Capacity:
50KVA-2400KVA

50K power module, 3U

Compensation performance

Grid statues	Voltage Residuals	Output voltage	Backup time (Can be customize)
Three-phase grid voltage events happened	130%	100%	3s
	90%	100%	
	50%	100%	
	0%	100%	
Single-phase grid voltage events happened	60%-120%	100%	
	50%	100%	
	30%	100%	

99.8%➤

efficiency

2ms

voltage sags correction
(typically)

-  Supercapacitor storage
-  High reliability
-  Hot swappable design
-  Standard 3s back up time
-  Harmonic/reactive power compensation function optional
-  datalog/events record
